

Please note that there may be slight color differences due to the difficulties of reproducing the colors on the internet. Most of the PCs will show the color darker and most Macs will display the colors lighter. Since our products are individually dyed So you have to allow 5-10% variance in color shade. We can provide you with more than 300 color shades from our color chart. If you are uncertain about a color, please contact us by email or fax. we are ready to help you.
